Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7, 8, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Werschmidt et al (U.S. Patent No. 5,620,427).

Werschmidt et al teaches a luer lock comprising at least two parts **22'** and **120** with at least one contact area therebetween at **148**. The device is made up of at least one material and comprises a plurality of projections **110** on at least

one contact area. As the device is fabricated from a polymer and thus not made of a

porous material, when fluid is applied thereto, more fluid will flow around the projections than through the at least one material of the medical device. Werschmidt et al

specifically teaches that the luer lock is constructed of polypropylene, a polyolefin. See col.10, lines 12-25.

Allowable Subject Matter

3. Claims 1, 4, 6, and 13-28 are allowed.
4. Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leigh McKane whose telephone number is 571-272-1275. The examiner can normally be reached on Monday-Wednesday (7:15 am-4:45 pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert J. Warden can be reached on 571-272-1275. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
